The DRAG KING REVOLUTION is happening now! Everyone's heard of Drag Queens. Now it's time for women, dressing in drag, to get theirs. What is a Drag King? Why are they so entertaining? What makes this type of role play so erotically interesting? How hot can one scene be??

ESOTERIK PIX has compiled an impressive library of footage over several years of shooting. Producer/ Director **LUCIA DAVIS** was present at some of the first Drag King contests in the early 90s. Having captured this trend in its infancy, **ESOTERIK** wants to bring you the sexiest performances and the inside story behind the top characters in the New York, London, and San Francisco Drag King scenes.

1996 saw the premiere of three Drag King trailers, produced by **ESOTERIK PIX**, on television and in New York City's hottest lesbian clubs. 1997 finds everyone eagerly awaiting the release of the feature-length documentary.

ESOTERIK PIX is an independent film and video production firm based out of Soho.
